

The Kairos GPO Avenue of Savings

A NEW PARTNERSHIP FOR KAIROS HEALTH SYSTEMS, INC.

From dining to building services, Sodexo puts the utmost care, time, and attention into understanding and meeting the needs of each of your residents.

Resident Dining - The taste and presentation of food for your residents is every bit as important as its nutritional content. Sodexo dining programs are just one

component of the superior resident experience they provide. You can select the program that best fits the financial or unique logistical needs of your community. Sodexo is the leading and largest employer of clinical dietitians in North America. Recognizing the important role it plays in the well-being of your residents, nutrition has become an essential component of the entire resident dining experience. That includes meal

planning, food selection, wellness, and medical nutrition care. Your community will receive unmatched nutrition experience with Sodexo.

Building Services – Includes **housekeeping, laundry, and maintenance.** Creating a comfortable, welcoming

environment for your residents is Sodexo's highest priority. They ensure that all techniques used in their cleaning processes follow the standards set by JCAHO, OBRA, HIPAA, and other pertinent regulatory agencies. Sodexo's cost-conscious and effective linen management program minimizes

waste without diminishing the quality of resident care. Their program of preventive maintenance and continuous monitoring is employed to identify potential problems in your community before they occur.

As Sodexo identifies and executes projects in your community, they track all costs associated with materials and labor to deliver the most cost-effective results. This information is shared with you through a Joint Review Committee.

To learn more about **Sodexo Senior Services**, contact Sandra Hegelein, M.S., R.D., Regional Sales Director at (610) 217-2994 or email her at sandra.hegelein@sodexo.com.
